3. [redacted] George Murphy, on the staff of the Joint Committee on Atomic Energy, advised me that Chairman Hollifield had quoted the Director in the Joint Committee's recent classified hearing with DOD and AEC witnesses on the subject of providing NATO countries with information on U. S. weapons design. The Director's statement was made at his briefing of the JCAE on 11 January 1967 and had to do with the security of NATO.

Murphy gave me an item from the Danish newspaper, B. T., having to do with NATO documents which were found in a dump in Denmark and asked if we could translate this item for him. I told Murphy I would see what could be done.
